27 SEP 1982

MEMORANDUM FOR: The Deputy Director (Research)

Pete:

25X1 You will recall that several weeks ago General Carter was concerned because Archie Roosevelt [] apparently had not been cut in on something the station was supposedly doing. The purpose of this note is not to register any complaint or to point any finger but is simply to express the hope that you have insured that OSA keeps the Station Chiefs appropriately advised []

25

Lyman B. Kirkpatrick
Executive Director

Handwritten: I don't believe this really changes anything, if "appropriately" is considered the key word.
